Measuring the Opioid Epidemic

Goal: Receive opioid stewardship data from 40% of AHA/HRET HIIN hospitals by March 30, 2019.
Measuring the Opioid Epidemic

Opioid MMEs/1,000 patient days

Opioid MMEs/1,000 ED visits
What can we do to improve opioid stewardship?

- Patient and Family Engagement
- Community partnerships – work outside your four walls
- Address and combat stigma
- Work across the continuum of care to improve care transitions
- Actively address and prevent burnout
- Acknowledge and address health inequities
- Enhance provider education
Behavioral Health Project

What are high performing behavioral health hospitals doing well that allows them to provide high quality, safe care to their patients?

How can we spread those practices to hospitals across the country?
What is Appreciative Inquiry?
Participating Hospitals

New York State Psychiatric Institute
New York, NY

North Dakota State Hospital
Jamestown, ND

Pine Rest Christian Mental Health Services
Grand Rapids, MI

Rogers Behavioral Health
Oconomowoc, WI

Sheppard Pratt Health System
Baltimore, MD
A Shift in Mindset
There are common characteristics that contribute to world-class behavioral health care.
Leading Behavioral Health Hospitals…

- Prioritize patient safety and harm prevention
- Create an environment that empowers patients to self-manage behaviors
- Support patient transitions
- Use data to drive excellence in care
- Promote workforce safety and wellness
- Engage their boards of directors in quality and patient safety
