Overview

Every hospital should be prepared in case a surveyor shows up at your door tomorrow. This day and a half live program will cover the entire CAH CoP manual. It is a great way to educate everyone in your hospital on all the sections in the CMS hospital manual especially ones that applies to their department. Hospitals have seen a significant increase in survey activity by CMS along with an increase number of deficiencies. Common deficiencies and how to avoid them will be discussed.

This seminar will help CAHs comply with specific CoP problem areas, including nursing care plans, legibility requirements, necessary policies and procedures, nursing medication carts, drug storage, informed consent, history and physicals, verbal orders, medication administration, security of medications, protocols, standing orders and emergency preparedness. There are many pharmacy standards and medication-related sections that will be covered in detail. Every tag section in the regulations and interpretive guidelines also will be covered. Attendees will learn details about the CoPs and what to do when a surveyor from arrives at your facility.

Faculty

Sue Dill Calloway, RN, AD, BA, BSN, MSN, JD, CPHRM, CCMSCP
Attorney at Law is currently the Medical-Legal Consultant and President of Patient Safety and Healthcare Consulting and Education. She is also the past chief learning officer and a current board member for the Emergency Medicine Patient Safety Foundation.
